## II. REMARKS

The application filed herewith is a Continuation of U.S. Serial No. 09/285,386, filed April 2, 1999. Upon entry of the present amendment, claim 1 will be pending.

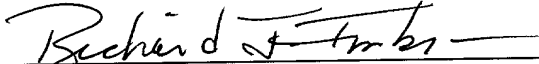

It is noted that a Notice to Comply with Requirements for Patent Applications containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures was mailed June 14, 2001, in connection with U.S. Serial No. 09/285,386. A Petition for a four month extension of time was filed November 14, 2001, in U.S. Serial No. 09/285,386. As such, the subject application is being filed during pendency of priority application U.S. Serial No. 09/285,386.

The amendment to the specification merely updates the priority information and, therefore, does not add new matter. The amendment to the claims merely cancels claims and, therefore, does not add new matter. Accordingly, entry of the amendments respectfully is requested.

The Examiner is invited to contact Applicants' undersigned representative if there are any questions relating to this application.

Respectfully submitted,

Date: November 14, 2001
